To Whom It May Concern:

Re: AllComm Telecomunicações – Heloisa Sant'Anna

On behalf of Dielectric Communications, I am pleased to provide a recommendation of AllComm Telecomunicações as a professional and effective representative of our company in Brazil.

Through the years, Heloisa Sant'Anna of AllComm has been a key factor in our successful participation in projects for DTV antennas systems such as those for TV Vanguarda and TV Aratu.

We rely on Heloisa Sant'Anna's professional direction and guidance in developing projects. Heloisa Sant'Anna has always clearly identified the customer's requirements which helped Dielectric produce efficient proposals focused on providing solution to customers. She has been an integral factor in the support offered by Dielectric to customers.

Heloisa Sant'Anna and her staff Allcomm have shown a great capacity to handle projects in a professional and efficient manner from which both Dielectric and our clients have benefited.

Please contact me with any questions on this matter.

Cordially,
